

OSC BEACON

State-owned PC Requirements

NOTE: The browser settings shown in this document do not prevent the **Internet Explorer 9 and Internet Explorer 10** security banner pop-up message from displaying at the bottom of the browser window when launching a SAPGUI client from the browser or when exporting a BI report to Excel from the browser. End-users will need to click the appropriate button on the prompt in order to proceed. This is a known issue with Microsoft.
